Subject: Long beach terminal expansion

11/19/2005 04:48 PM

After all the research and impact studies point to terminal expansion in Long Beach, why not start taking the steps towards that? Stop giving so much regard to a vocal minority and take action! It will be good for the airport, it will be good for the city and it will be good for the traveling public. It is time for the double wide trailers to go back to the trailer park.

Kind regards

Gabriel Rubin
